CATALOGUE No. 6

CHICAGO HARDWARE MANUFACTURING CO.

HIGH GRADE
BUILDERS'.....
HARDWARE.

"CHICAGO"

WORKS—NORTH CHICAGO..
GENERAL OFFICE—CHICAGO

Copyrighted, 1895, by the
Chicago Hardware Manufacturing Co., Chicago, Ill.

R. R. Donnelley & Sons Co.
Printers and Binders, Chicago

J. Manz & Company,
Engravers, Chicago...

We present our Catalogue No. 6. We believe the line of goods we show will please those who are interested in real and substantial progress in the development of Artistic Builders' Hardware. Our line of House Hardware is now complete. The Chicago Lock is quietly achieving success, and we propose to keep it in the front rank. We shall be pleased at any time to prepare and submit Special Designs of Hardware. Yours respectfully,

CHICAGO HARDWARE MFG CO.

Chicago, December 1, 1895.

THE GENERAL PLAN OF THIS CATALOGUE.

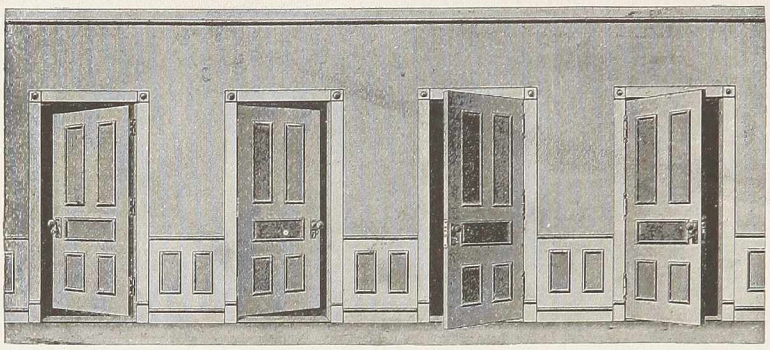
We Condense all that is possible and give Full Information.

We illustrate Latches and Locks on pages 2 to 63, as follows: Beginning with Latches, we progress steadily through the line, showing larger Locks and better grades as we go, and closing with Cylinder Locks.

We illustrate Knobs and General Hardware in designs on pages 71 to 149, as follows: Beginning with our cheaper grades of goods, we pass on, showing Plain Bronze Knobs, and then, in order, other styles of Hardware, giving the larger part of this division to high grade designs, each of which exemplify some leading period or school of architecture.

On the remaining pages we show Plain Bronze General Hardware, Champion Hinges, Cabinet Trimmings, Hinge and Kick Plates.

HANDS OF DOORS.



1. RIGHT HAND. 2. LEFT HAND. 3. RIGHT HAND REVERSE BEVEL. 4. LEFT HAND REVERSE BEVEL.

TAKE HAND OF DOOR FROM OUTSIDE OF HOUSE OR ROOM.

Figure 1—Requires Right Hand Lock and Hinges.
Figure 2—Requires Left Hand Lock and Hinges.
Figure 3—Requires Right Hand Reverse Bevel Lock and Left Hand Hinges.
Figure 4—Requires Left Hand Reverse Bevel Lock and Right Hand Hinges.

DESCRIPTION OF FINISHES.

1 Finish.—Light Bronze, or natural color of the metal.
2 Finish.—Dark or Statuary Bronze. This is similar in color to light seal brown.
3 Finish.—Black on Inlaid Work, with Bright Raised Surface.
4 Finish.—No. 2 Finish on Inlaid Work, with Bright Raised Surface.
5 Finish.—Dead Finish (on Plain Goods).
6 Finish.—Antique Brass, Heavy Shades.
6B Finish.—Antique Brass, Light Shades.
7 Finish.—Antique Bronze, Heavy Shades.
8 Finish.—Antique Copper, Heavy Shades.
8B Finish.—Antique Copper, Light Shades.
9 Finish.—Oxidized Silver, Heavy Shades.
10 Finish.—Butler's Silver, Light Shade, Solid Color.
11 Finish.—Burnished Silver.
11B Finish.—Satin Finish Silver.
12 Finish.—Silver and Gold (on Ornamental Goods).
13 Finish.—Polished Gold.
13B Finish.—Satin Finish Gold.
13C Finish.—Burnished Gold.
15 Finish.—Nickel-Plated on Bronze Metal.
16 Finish.—Dull Brass.
17 Finish.—Dull Copper.
18 Finish.—Blue Steel.
20 Finish.—Oxidized Iron, under Wells' Rustless and Bower-Barff Patents.
21 Finish.—Boston Finish (on Iron).
22 Finish.—Light Yellow Brass, or natural color of metal.
23 Finish.—Dead Finish on Yellow Brass Metal.
25 Finish.—Mottled Silver.
26 Finish.—Dark Brass, Satin Finish, High Points of Relief Work Light.
26B Finish.—Dark Brass, Satin Finish, Solid Color, lighter shade than 26.
28 Finish.—Dark Copper, Satin Finish, High Points of Relief Work Light.
28B Finish.—Dark Copper, Satin Finish, Solid Color.
28C Finish.—Dark Copper, Satin Finish, Solid Color, lighter shade than 28 B.
28D Finish.—Dark Copper, Satin Finish, Solid Color, lighter shade than 28C.
28M Finish.—Dark Copper. Satin Finish, Mottled.
33 Finish.—Imitation of 13 Finish Gold.

F.—The letter "F" suffixed to any finish number given above indicates that the stated finish is to be made on Iron; thus, 8 F Finish would be 8 Finish on Iron, etc.
T.—The letter "T" suffixed to a catalogue number denotes Tucker Bronzed Finish.
E.—The letter "E" suffixed to a catalogue number denotes Bronze Plated Finish.

OXIDIZED IRON OR BOWER-BARFF HARDWARE.

We are one of the two manufacturers of Builders' Hardware who are making these goods by the scientific process patented under the above name. We have an extensive, modern furnace for this treatment and can give our customers the results of the most approved methods.

We are prepared to guarantee our product to be the best that can be produced, and for use inside of buildings, to be rust proof. We treat any of our designs of hardware by this process to order.

LOCKS AND LATCHES.

In describing Locks and Latches on the following pages we have tabulated all the facts in the most concise form.

Prefixes and Suffixes used with Lock numbers are explained as below.

A Prefixed—Anti-Friction Latch Bolt.

L Suffixed—Light or Easy Spring on Latch Bolt.

M Suffixed—Master Keyed Locks.

O Prefixed—Locks with Thumb Bolt.

V Suffixed—Vestibule Latches.

All Keys, except for No. 1015 and for Flush Sliding Door Locks, are Nickel Plated.

All Locks made not reversible have fronts beveled one-eighth Inch in two and one-quarter Inches.

As a rule our inside Latches are packed 24 dozen in a case, and inside Locks 12 dozen in a case.

All Latches and Locks are packed with Screws.

LATCHES FOR INSIDE DOORS.

CHICAGO CYLINDER LOCKS.

The following pages describe our Cylinder Locks.

We especially call attention to our Master Keyed Cylinder, which we believe combines perfect simplicity, absolute security and thorough durability. On page 51 we show illustrations of this cylinder which give a clear idea of its mechanism.

All Cylinder Locks, with Knobs, Store Door Handles, etc., to fit them, are numbered between 7000 and 7999, and no numbers in this series are used for any other than Cylinder goods.

All Cylinder Locks are packed with three Keys to each Lock.

In ordering Cylinder Keys to fit specific Locks, send Sample Key with order.

DESCRIPTION OF CHICAGO CYLINDER.

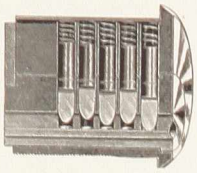
CHICAGO

CUTS $\frac{1}{2}$ SIZE

FULL FRONT CYLINDER.

No. 1

SIDE SECTION.



No. 2

CROSS SECTION.

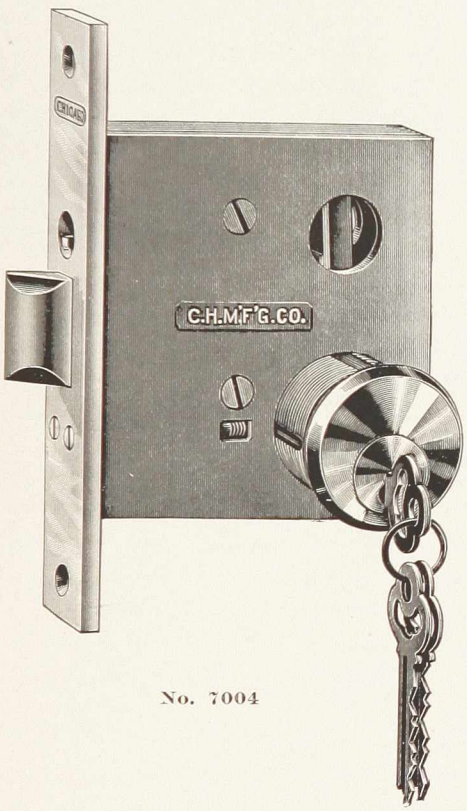
No. 3

Cut No. 1 is a full front view of Cylinder, showing Key Hole, etc.

Cut No. 2 is a section of a Cylinder cut lengthwise, showing Springs, Upper Pins, and one set of Lower Pins.

Cut No. 3 is a section of a Cylinder cut crosswise, showing Spring, Upper Pin, and both Lower Pins in place. Our regular Key works on the long Pins and our Master Key on the short Pins; either Key working in the one Key Hole and releasing the Cam that actuates the Bolts in the Lock.

CYLINDER NIGHT LATCHES.



No. 7004

CYLINDER RINGS.

We furnish the two smaller Rings with each Cylinder Lock when needed without charge, and the large one to order at a small charge.

One-half pair 00104 Knobs are packed with this Latch unless otherwise specified.

Operated from outside by Key, and from inside by Knob.

Bolt is held back if desired by Stop in face.

Two Cylinders furnished at extra price when so ordered.

Master Keyed Locks furnished in sets with any desired number of Locks in a set, one Master Key to pass the whole set.

In ordering give thickness of Door.

KNOBS.

EXPLANATORY.

Please note our plan of numbering the Knobs found on the following pages. We have a system, simple and effective—our Knob numbers have meaning and define themselves. We use *invariably* elongated Escutcheons, and the numbers of Knobs are so arranged as to show what size of Lock they will fit. For all ordinary inside door Knobs we use numbers from 62 to 199 inclusive. All Knobs for 3½ inch Locks have Whole Numbers, as, for example, a Jet Knob with Bronze rose to fit all 3½ inch Locks is numbered 62. The same Knob with Bronze rose to fit all 4¼ inch and 4½ inch Locks is numbered 062, while the same Knob with Bronze rose for *Latches* is numbered 0062. Thus it will be seen that the base number for all inside Knobs is that for 3½ inch Locks, Knobs for 4¼ and 4½ inch Locks prefixing "0," and those for Latches prefixing "00."

Knobs for 4¾ inch Front Door Locks are in 200 series.
Knobs for 3½ inch Vestibule Latches are in 200V series.
Knobs for 6 inch Front Door Locks are in 300 series.
Knobs for 4 inch Vestibule Latches are in 300V series.
Knobs for 7¾ inch Front Door Locks are in 400 series.
Knobs for 5½ inch Vestibule Latches are in 400V series.
Knobs for 2850 series State House Locks are in 500 series.
Knobs for O2800 Communicating Locks are in 600 series.
Knobs for 2885 series Hotel Locks are in 700 series.
Knobs for 2815 series Office Locks are in 2100 series.
Knobs for 2800 series Office Locks are in 2900 series.
Knobs for 5450 and 5451 French Window Locks are in 5500 series.
Knobs for 5452 and 5453 French Window Locks are in 05500 series.
Knobs for 7000 and 7050 series Cylinder Office Locks are in 7100 series or 7900 series.
Knobs for 7010 series Cylinder Office Locks are in 7200 series.
Knobs for 7060 series Cylinder Office Locks are in 7300 series.
Knobs for 7040 series Cylinder Front Door Locks are in 7400 series.
Knobs for 7040V series Cylinder Vestibule Latches are in 7400V series.
Knobs for 7070 series Cylinder Front Door Locks are in 7500 series.
Knobs for 7070V series Cylinder Vestibule Latches are in 7500V series.

On all Knobs numbered above 200 the two terminal figures are significant. Thus, 214, 314, 7514, etc., etc., are all *one style of Knob and Rose*, varying in size to fit their respective Locks.

THE CHAMPION DOUBLE ACTING SPRING HINGES.

This Hinge has merits which give it decided advantages over other makes for heavy, every-day work.

1st. It is as strong as any butt and will hold the heaviest door in place without a particle of sagging.

2nd. It is compact, simple and not easily broken.

3rd. It is both right and left hand, and single as well as double acting.

4th. It is reasonable in price.

We illustrate on the following pages.

PLEASE NOTE VALUABLE IMPROVEMENTS.

We have recently added to this Hinge a new feature (patent applied for), which is exceedingly valuable in accomplishing two important results:

1st. The device creates the greatest resistance at center, or when the door is closed—thus holding strongly against currents of air, etc.

2nd. It practically checks the door at center, bringing it to rest very promptly, thus avoiding the long continued swinging of all free double acting Hinges.

This device is entirely concealed from view, and is simple and durable.

We have also arranged to make these Hinges self-lubricating, a feature which will add very much to their value in use.

CHAMPION DOUBLE ACTING SPRING HINGES.
